PUBLIC FLOAT THRESHOLD

This announcement is made by FIT Hon Teng Limited (the “**Company**”, and together with its subsidiaries, the “**Group**”) pursuant to Rule 13.32C of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) (the “**Listing Rules**”).

The board of directors of the Company (the “**Board**”) hereby announces that, with effect from January 1, 2026, the Company will be relying on the Alternative Threshold, instead of the Initial Prescribed Threshold (as defined under Rule 13.32B(2) and Rule 13.32B(1) of the Listing Rules, respectively) for the purpose of compliance with the minimum public float prescribed under Rule 13.32B of the Listing Rules.

REASONS FOR THE CHANGE

To satisfy the Alternative Threshold under Rule 13.32B(2) of the Listing Rules, a portion of the class of shares listed on the Stock Exchange and held by the public must, at all times: (a) have a market value of at least HK\$1,000,000,000 and (b) represent at least 10% of the issuer’s total number of issued shares in that class of shares (excluding treasury shares).

The Board considers that reliance on the Alternative Threshold would provide the Company with greater flexibility when conducting transactions which may involve changes to its share capital, without compromising the maintenance of a meaningful public float. The Board considers that reliance on the Alternative Threshold is appropriate having regard to the Company’s shareholding structure, historical trading liquidity and overall circumstances, and is therefore in the interests of the Company and its shareholders as a whole.

INFORMATION ON PUBLIC FLOAT

As of January 1, 2026, being the latest practicable date for the purpose of ascertaining the relevant market value under the Alternative Threshold, the Company's public float has a market value of approximately HK\$7,273,902,134 and represents approximately 20.43% of the Company's total issued share capital, both of which are well above the Alternative Threshold.
